Pasteurized

Third Chapter

Name of the food product, quantity, Unit food ingredient, Nutritional information, and Date of Use

Name of the food or food product

- The name will *be specific, not denominational*, which will indicate the nature of the food;
- Generally legal names should be used, but in the absence of such names common names and descriptive names should be provided if common names do not exist or are not used;
- The name under which the sale will be made must be applicable in Bangladesh;
- The name under which the sale will be made cannot be replaced by any trademark, brand name or fancy name;
- In order to allay the suspicions of the buyer, the physical condition of the food or if certain processing procedures are followed, such as powdered, chilled, dried, frozen, condensed, smoked, etc., must be attached to the name to be sold; and
- The name of *the imported food or food product should be labeled* in such a way that the consumer is not confused

Quantity, unit and ingredients of food or food products

Net weight and quantity of packaged food should be mentioned in the following way, such as—

- 01 *Volume's unit milliliter or liter* in terms of liquid food; and
- 02 *Weight's unit milligram or gram or kilogram* in terms of food other than liquid.

Nutritional information

The following nutrition information must be declared on the label of the packaged food, such as

01 *Energy value*

02 *Quantity of fat, saturates, carbohydrate, sugar, protein and salt*

Nutrition Facts	
8 servings per container	
Serving size	2/3 cup (55g)
Amount per serving	
Calories	230
% Daily Value*	
Total Fat 8g	10%
Saturated Fat 1g	5%
Trans Fat 0g	
Cholesterol 0mg	0%
Sodium 160mg	7%
Total Carbohydrate 37g	13%
Dietary Fiber 4g	14%
Total Sugars 12g	
Includes 10g Added Sugars	20%
Protein 3g	
Vitamin D 2mcg	10%
Calcium 260mg	20%
Iron 8mg	45%
Potassium 235mg	6%
* The % Daily Value (DV) tells you how much a nutrient in a serving of food contributes to a daily diet. 2,000 calories a day is used for general nutrition advice.	

Date of use of food and food products

Each packaged food and food product packaging should clearly state the date of use following the instructions given below—

For fast perishable or short-term preserved food or food products, the "expiration date" or "last date of use" and for long-preserved food products, the "best before date" must *be engraved in indelible ink or engraved;*

The expressions "*expiration date*" and "*last date of use*" or "*best before date*" must be combined with the corresponding date

"Expiry date" and "last date of use" or "best before date" should be written in chronological order of days, months and years.

No food or food products may be sold, marketed or distributed after the maximum date of good consumption.

Date of use of food and food products

BY ORDER OF BANGLADESH FOOD SAFETY AUTHORITY

Fourth Chapter

Disseminating Misleading Information

Disseminating misleading information

01

Misleading, untrue or falsely dependent information may not be inserted on the label in violation of any provision of this Regulation and no advertisement may be prepared, printed or disseminated using such information.

02

If any person violates the provisions of sub-regulation (1), it shall be ***deemed to be in violation of sections 41 and 42 of the Act.***

Fifth Chapter

Miscellaneous

Miscellaneous

Inapplicability

All provisions of Pure Food Rules, 1967 relating to the provisions of this Regulation shall come into force as soon as these Regulations come into force.

Publication of English Translation

After the introduction of these Regulations, the Authority may, if necessary, with the prior approval of the Government, by notification in the Official Gazette, publish an authentic English text of the Bengali text of this Regulation. Provided, however, that in case of conflict between the Bengali text and the English text, the Bengali text shall prevail..

Thanks Everyone

“To avoid health issues, please read the label properly before purchase a food product”
